

ASSOBAGNO

Italian Design at ISH 2019

FEDERLEGNORARREDO

ASSOBAGNO

Assobagno is one of the 11 associations of FederlegnoArredo which unites the leading Italian producers of bathroom furnishings and articles within Confindustria. It associates 150 companies with an overall turnover of Euro 1,500 million, accounting for about 45% of the turnover of the whole bathroom furnishings sector, estimated at more than Euro 2,700 million, excluding ceramic sanitary ware and coatings, in the Italian market. The aim of the association is to support the development of associate companies and promote the culture and design of the Italian bathroom around the world, drawing as many companies as possible into the association and promoting discussion and exchanges between them to grow together and work as a system.

Design Italia 2019

Design Italia is the collective ambassador of quality Italian bathroom furnishings, promoted by Assobagno of FederlegnoArredo. It is an inspired formula with a co-ordinated image and scenographic setting of great impact which focuses on the product and guarantees companies immediate visibility to visitors. The project covers more than 700 sq. m. at the entrance to Hall 3.0, hosting the 13 companies attending with their most recent creations in a shared space that doesn't detract from the identity of each brand.

ASSOBAGNO

Other associated companies at ISH 2019

The growing vocation of Italian companies for international markets is strongly supported in the promotional work of Assobagno by FederlegnoArredo, which encourages this goal with specific projects aimed at all manufacturing companies interested in foreign markets.

At ISH Frankfurt 2019, Assobagno is also strengthened by the presence of all the associated companies that exhibit with their own stands.

This brochure is confirmed as the ideal tool for facilitating contacts between visitors and associate exhibiting companies.
