OBIETTIVI

START THINKING IN ENGLISH, and BECOME MORE FLUENT, BECOME MORE CONFIDENT by realizing that your objective is not to be perfect. You want to communicate better. Relax and enjoy your formal and informal conversations.

ARGOMENTI

COURSE OBJECTIVES: To help learners to speak more fluently and be better understood, and comprehend better

COURSE CONTENT: Participants will do exercises in class, and will continue on their own from week to week. They will learn new IT tools to use (e.g. it's better to use English-only dictionaries if you want to think in English). People usually fear judgment, but being perfect in order not to lose face (usually subconsciously) is not a good motivation. Conversely, learners should become a little more aware that making an error doesn't equal failure. Articles to read, videos to watch, sharing.
